

OPENING DOORS

Argenta[®] Invisidoor[®]
patented technology

Product

- Invisible aluminium frame for internal doors

Advantages

- **Attractive:** no frame visible around door
- **Efficient installation:** door and frame installed together
 - only 1-site visit
 - door and frame assembled at factory
- **Can be used anywhere:**
 - suitable for all standard door openings (new builds and renovations)
 - suitable for door widths 40 mm, 37 mm and 35 mm
- **Compact:** suitable for brickwork and walls of minimum 60 mm thick
- **Strong frame/case construction** thanks to:
 - integrated corner trim connector
 - sturdy, simple attachment to wall using dowels
- **No cracks in the plaster** thanks to
 - strong construction and minimal frame expansion
 - better adhesion of plasterwork to profile

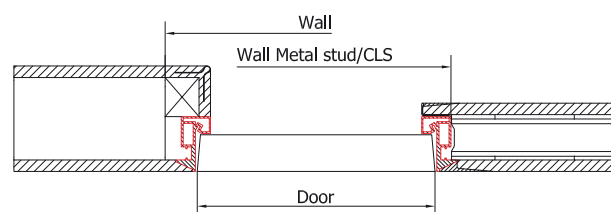

Standard door accessories supplied:

- invisible adjustable hinge - Argenta Invisible
- magnetic lock
- seal around frame absorbs door closing impact

Dimensions

- **Standard**
 - height: 2015 mm/2115mm/2315 mm
 - width: 630/680/730/780/830/930/1030/1230
- **Made to measure** (on request)
