

Creating healthy spaces

ALUMINIUM PANELS WITH FABRIC SCREEN

# Loggiascreen® 4Fix

- Sunprotection that's attractive, flexible and effective
- Provides privacy and wind protection as well
- Sliding or fixed panels

DOMESTIC USE

# Loggiascreen® 4 Fix

## DESCRIPTION

Loggiascreen® 4 FIX combines the properties of different materials and systems in a solution distinguished by its elegance, flexibility and efficiency. Double the attraction – the fabric is attached on all four sides and is held under permanent tension by a system integrated into the top and bottom frames. Loggiascreen® 4 FIX is a system of panels (sliding, fixed or folding) containing a taught fabric, which allows you to control light and heat penetration by changing the position of the panels to suit your needs. Loggiascreen® 4 FIX can also be used to provide privacy and protection from the wind.

## TECHNICAL SPECIFICATIONS

- Extruded aluminium frame, anodised or powder-coated
- Solid structure for high wind resistance
- Integrated system for attaching the fabric on all sides
